Members of the C.O.O.L. team,

We, the members of the League of Silent Flight, also have a close attachment to remotely controlled gliders and spend hours looking for lift and avoiding sink. We salute your efforts and wish the mission of the Scarlet Knight glider every success. The duration of your mission is mind boggling to us who consider a two hour flight most note-worthy. And, when our gliders are out of sight, it is a cause for concern for even though some of us do have limited feedback from them.

Enclosed, find some League of Silent Flight stickers. Sorry, they are not waterproof but the League of Silent Flight would consider it an honor if one or more of the stickers found their way onto one of your gliders.

Respectfully submitted on behalf of the members and officers of the League of Silent Flight,

Jim Deck LSF Secretary
