The Eleventh Meeting of the Observation Coordination Group (OCG-11) will now be an online meeting due to the Covid-19 pandemic. We will try to achieve as many of the original objectives as we can through a series of four online sessions held during the week 11 - 14 May 2020, the week planned for the original face-to-face meeting.

Logistics:

- 4 days and 4 sessions, the format will be generally short presentations with discussion focused around proposed actions/issues or more open/brainstorming – we will add this information into the agenda from next week
- Sessions will start **12:00 UTC (14:00 Paris, Washington 08:00, Seattle 05:00, Fiji 00:00, Tokyo 21:00, Hobart 22:00)**. This is not ideal for all, notably those in Fiji, Australia, and Seattle. We hope the compromise will work.
- Meetings will be delivered via GoToMeet, calendar invitations will be sent.

**Online meeting etiquette**

- By default, keep your microphone muted unless you are speaking. We will try to use video, unless it presents a problem for bandwidth, so join with your camera on.
- If you have a question or comment, please either use the chat box in GoToMeeting to type your question/comment" or indicate by switching your microphone on (green) in order to be called upon by the moderator.
- Please be succinct in both your questions and answers.
- At the end of each item, please expect to be called upon to ensure all have had the chance to comment.
- The sessions will be recorded for the purpose of writing the report, and the recordings deleted afterwards
